# Redfern Garments

There is but one word to adequately describe the New Fall Garments—*Charming*.

Never has there been such a variety of beautiful materials; and the styles—well, they must be seen to be appreciated.

The graceful lines of the new suits and coats lend themselves readily to any figure, and bring out to the fullest extent the slender, tapering effect so much desired.

The textile mills have outdone themselves this season:—producing materials that are both novel and practical. Among the leading fabrics in coatings are Fur Effects, which have been constructed with a fidelity to the natural animal skin that is truly marvelous.

In the hands of the skilled designer, these fabrics have been transformed into garments of matchless beauty to delight the eye. May we not have the pleasure of showing them to you today?

In addition to the excellence of the Styles and Materials, the Workmanship of *Redfern* Coats and Suits is of such high character that our personal guarantee for satisfactory wear goes with every garment bearing this label:
